all our **SPOOLS**
are **USER-FRIENDLY**
and deliver a
GREAT TRIMMING EXPERIENCE

DOUBLE THREAD

All our trimmers are provided with a double thread system. A double thread will give you a much greater cutting power compared to a spool with single thread. You will not only be able to get the job done faster, the trimming result will also be more accurate. You can easily say that a double thread means double speed and double strength.

TAP & GO THREAD LENGTHENING SYSTEM

Tap the trimmer head on the ground and it automatically feeds new line. It gives you full control over how much thread you use.

AUTOMATIC THREAD LENGTHENING SYSTEM

The thread lengthens automatically everytime you stop and start the trimmer again. No need to tap the head on the ground anymore.

INTELLIGENT THREAD LENGTHENING SYSTEM

When the string gets too short – and only then - the intelligent thread lengthening system will self adjust the wire length and send out more line. You can finish trimming faster and the thread will have a 30% longer cutting capacity.
